

PROJECT

ADELAIDE OVAL

PROJECT WITH RESTRICTED ACCESS

Adelaide Oval required spreading of mulch onto a batter which was inaccessible by heavy machinery. The key project requirement was the ability to access the restricted area and carry a large volume of product to reduce operational time.

Results: Mulch installed without damaging existing and newly planted trees, saved operational time and reduced project costs.

Jeffries PowerScaper can install up to 100 m3 per day with up to 60m of hose.

SERVICE

Jeffries PowerScaper

LOCATION

Adelaide Oval

Jeffries PowerScaper is perfect for sites with difficult or awkward access.

THE POWERSCAPER

The Jeffries PowerScaper is equivalent to 79 trailer loads or 510 wheelbarrow loads in each truck load. Perfect solution with up to 60m of hose reach for installing mulch without damaging existing and newly planted trees.
