

Jeffries Forest Mulch

Just like the mulch layer in a forest, *Jeffries Forest Mulch* will do the same in your garden, protecting plant roots against the elements and improving the soil at the same time.

Use

- When you want a fine grade, natural looking mulch
- When you want a mulch, full of composted organic matter that conditions your soil

Key benefits

- Suppresses weed growth
- Improves water retention
- Insulates plants against extreme temperature fluctuations
- Reduces soil erosion
- Composted organic material, free of weed seeds
- Contains vital organic matter to further improve soil fertility and structure.

Made from

100% green organic material, including garden prunings and tree loppings, that has been through a controlled process of natural aerobic composting.

Visit www.jeffries.com.au for more information.

Certifications

Australian Standard 4454 LIC 2017
Certified for organic production to NASAA
standard 5125M

Jeffries Forest Mulch

Application

- Spread mulch over the soil surface to a depth of approximately 50mm

- Keep a small space between mulch and base of plants

- Water in thoroughly when finished, ensuring the water is penetrating the mulch and wetting the soil below

Area may need fewer, heavier irrigations to ensure the plant root zone is wet each time

ensure any irrigation drip lines sit underneath the mulch

at your local Jeffries stockist. For a list of Jeffries stockists go to www.jeffries.com.au.

Typical Analysis

Particle size grading	soil conditioner
Organic Matter	50 - 60%
pH	7 - 8.2
Bulk density	0.5 - 0.75 tonne/m ³

Nutrient availability

	%	kg/m ²
Nitrogen (N)	0.7 - 1.3 %	3.1 - 5.6
Phosphorous (P)	0.1 - 0.2 %	0.3 - .07
Soluble Phosphorous	2 - 5mg/L	
Potassium (K)	0.3 - 0.6 %	1.5 - 2.7
Calcium (Ca)	1.4 - 2.1 %	6.1 - 9.1
Magnesium (Mg)	0.2 - 0.4 %	1.0 - 1.6
Sulphur (S)	0.1 - 0.2 %	0.4 - 0.9

Nutrient Availability

Jeffries Forest Mulch is a mulch as opposed to a fertiliser, however, it does contribute nutrients to your soil. It is important to account for these additional nutrients when considering your fertiliser needs, which can also provide extra savings.

Soil pH buffering

As *Jeffries Forest Mulch* breaks down into the soil, the organic matter works to buffer the fluctuations in soil pH, neutralising the soil and improving nutrient uptake and plant health.

HEALTH WARNING

this product contains microorganisms • keep product moist when handling to avoid dust
avoid breathing dust or mists – wear particulate mask if dusty • this product has low risk of containing sharp materials
wear appropriate gloves and footwear as a precautionary measure • wash hands immediately after use
